

# Palomar Mountain Land Patents, 1871 to 1984

Peter Brueggeman, 2022

Land patents are deeds from the U.S. government conveying title, and recorded by the government. The U.S. Public Land Survey System divides land into 24-mile tracts that are subdivided into 16 townships that are 6 miles by 6 miles, or 36 square miles. Each township is divided into 36 one-square-mile sections. Each section is 640 acres, and then sections would be halved and quartered, etc. For example, a Robert Asher land patent dated January 16, 1911, specified Township 9 South, Range 1 East, Section 31. Some patentees bought their land for cash, others homesteaded a claim, and others came into ownership via a donation act passed by Congress.

**Key to Palomar Mountain land patents: a 1903 map overlaid with Township, Range, Section numbering**

## List of Palomar Mountain land patents

by Larry Vredenburg

Twp	Rng	Sec	Authority	Date	Patentee
